

AxonWorks™

A SOLUTION FOR EXCHANGES AND VENDORS TO STREAMLINE THE COLLECTION AND MANAGEMENT OF MARKET DATA USAGE DECLARATIONS.

ADP

The Axon Declaration Portal (ADP) is a white label solution that provides market data vendors and exchanges with the ability to collect and manage their customers' market data declarations via a web portal. Delivering a simple, yet comprehensive online solution for declaring market data usage.

AUTOMATE

Automated market data declaration requests and reminders are sent out via email to all your subscribing clients. The status of each client declaration is monitored by the ADP administration portal.

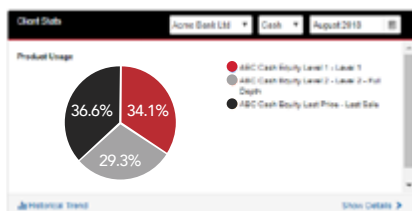

SIMPLIFY

Market data declarations are entered into a web form via the Axon Declaration Portal. Spreadsheets sent back and forth by email are no longer required.

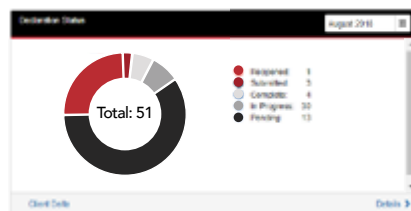

COMPLY

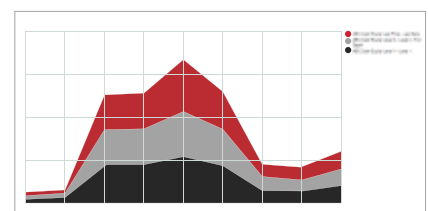

With this simplified declaration process, it makes it easier for your client to comply with their reporting obligations.

CORE FEATURES

CONSOLIDATED VIEW

Provides an instant view of the status of your client's current declarations along with trend analysis of previous declarations.

CENTRALISED DATABASE

Declarations collected from all your clients are consolidated in a central auditable database which can be used to feed the billing process.

EASY ACCESS

ADP provides market data clients with a simple to use web enabled interface via secure login.

ROLE BASED LOGINS

Multiple levels of access to the portal are available to allow you to manage which of your clients is allowed to read, save and submit their declarations.

CLOUD BASED SERVICE

The ADP service is a resilient cloud-based service which is backed up to ensure data is retained for audit purposes, in line with exchange and vendor policy.
